

ROBERT ANDERSON JR.

UX/UI Designer

PROFESSIONAL SUMMARY

UX Designer with ~3 years of project-based experience designing user-centered solutions informed by behavior design and habit formation principles. Skilled in research, wireframing, prototyping, and usability-focused iteration, with experience using AI to accelerate synthesis and ideation. Focused on reducing friction and designing experiences that move users from intention to action.

EMPLOYMENT HISTORY

UX DESIGNER (FREELANCE / PROJECT-BASED)

Apr 2022 – Present

- ♦ Led end-to-end UX design for mobile and web-based products, including user research, problem definition, wireframing, prototyping, and iteration
- ♦ Designed user-centered solutions informed by behavior design and habit-formation principles
- ♦ Conducted usability evaluations and iterated wireframes and prototypes based on feedback and design constraints
- ♦ Used AI-assisted workflows to support research synthesis, ideation, and rapid iteration
- ♦ Collaborated with stakeholders to align user needs with product goals

MASTER SECURITY TRAINING INSTRUCTOR

May 2019 – Dec 2025

Transportation Security Administration

- ♦ Designed and iterated user-centered training programs based on feedback, performance data, and evolving requirements
- ♦ Evaluated program effectiveness and implemented process improvements to reduce friction and increase clarity

VARIOUS ROLES (TRAINING & OPERATIONS)

Mar 2016 – May 2019

Transportation Security Administration

- ♦ Improved operational workflows by identifying friction points and implementing procedural refinements
- ♦ Built strong user empathy through direct interaction, observation, and real-time problem solving
